DeVon Miller
Building Commissioning
Administrator

INTRODUCTION

DeVon C. Miller, CPMP, LEED® AP

Building Commissioning Administrator
Engineering Division
Facilities Management
Western Michigan University
Phone: (269) 387-8517
Email: devon.miller@wmich.edu

DeVon Miller is the Building Commissioning Administrator at Western Michigan University. DeVon is new to Facilities Management but has over 15 years of experience in project management including energy conservation, building automation systems, building commissioning and is a Commissioning Process Management Professional and LEED Accredited Professional with ASHRAE and Green Building Certification Institute (GBCI) respectively. He holds a BS in Mechanical Engineering from Michigan Technological University.

AGENDA

WMU Fast Facts

WMU FM

BIM for new
construction

BIM for existing
buildings

WMU FAST FACTS

Established in 1903

Enrollment 24,294

1,200 acres and 167 buildings

8 million square feet of University space

On-campus residence halls and apartments are able to house 6,400 students

39 miles of sidewalk and 26.5 lane miles of roadway

49 miles of utilities

WMU FAST FACTS

Western Michigan University
Facilities Management

467 employees

50,000 work orders in 2013

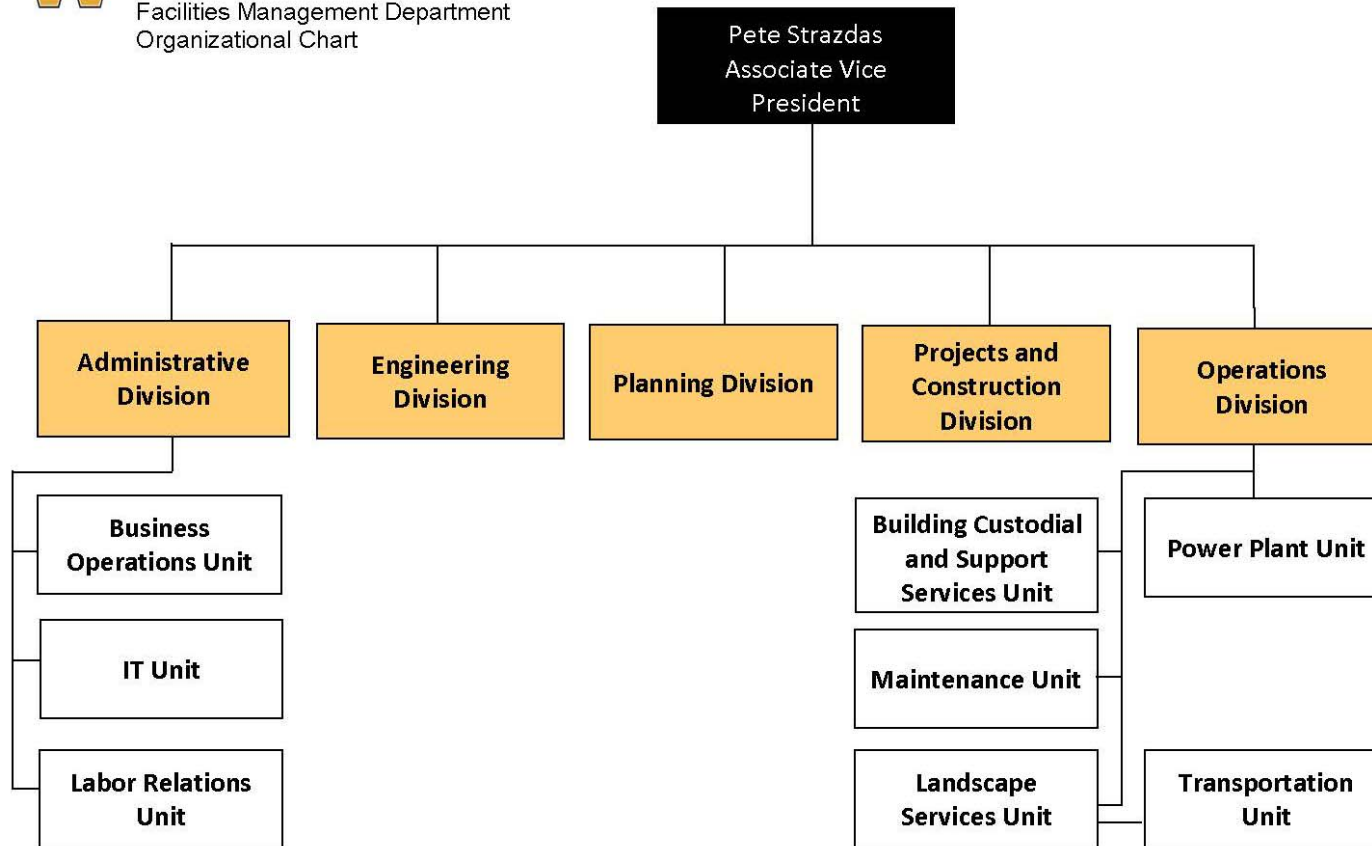

20,000 PM maintenance orders

Annual dispatch of 72 million KWh of electricity and
510 million pounds of steam

BIM PROJECT EXECUTION PLAN: WHAT'S IN IT?

1. PROJECT GOALS / BIM USES

BIM EXECUTION PLAN

1. BIM Goals and uses

GOALS

PRIORITY (HIGH/ MED/ LOW)	GOAL DESCRIPTION	PROJECT PHASE
H	Provide WMU a LOD 300 model including Arch, MEP, and Structure for construction	Construction
H	Coordinate all disciplines through the design/construction process to reduce RFI's	Construction
M	Reference all building components per the Western Michigan University BIM guideline	Lifecycle
H	Improve commissioning process by adding equipment information into BIM process	Lifecycle
H	Improve visualization of design intent using BIM design principles	Design

BIM USES

X	PLAN	X	DESIGN	X	CONSTRUCT	X	OPERATE
	PROGRAMMING	X	DESIGN AUTHORIZING		SITE UTILIZATION PLANNING		BUILDING MAINTENANCE SCHEDULING
	SITE ANALYSIS	X	DESIGN REVIEWS	X	CONSTRUCTION SYSTEM DESIGN		BUILDING SYSTEM ANALYSIS
		X	3D COORDINATION	X	3D COORDINATION	X	ASSET MANAGEMENT
		X	STRUCTURAL ANALYSIS	X	DIGITAL FABRICATION	X	SPACE MANAGEMENT / TRACKING
			LIGHTING ANALYSIS		3D CONTROL AND PLANNING		DISASTER PLANNING
			ENERGY ANALYSIS		RECORD MODELING		RECORD MODELING
			MECHANICAL ANALYSIS				
			OTHER ENG. ANALYSIS				
			SUSTAINABILITY (LEED) EVALUATION				
			CODE VALIDATION				
	PHASE PLANNING (4D MODELING)		PHASE PLANNING (4D MODELING)		PHASE PLANNING (4D MODELING)		PHASE PLANNING (4D MODELING)
X	COST ESTIMATION	X	COST ESTIMATION	X	COST ESTIMATION		COST ESTIMATION

BIM EXECUTION PLAN

2. Collaboration Procedures: how often to share? How?

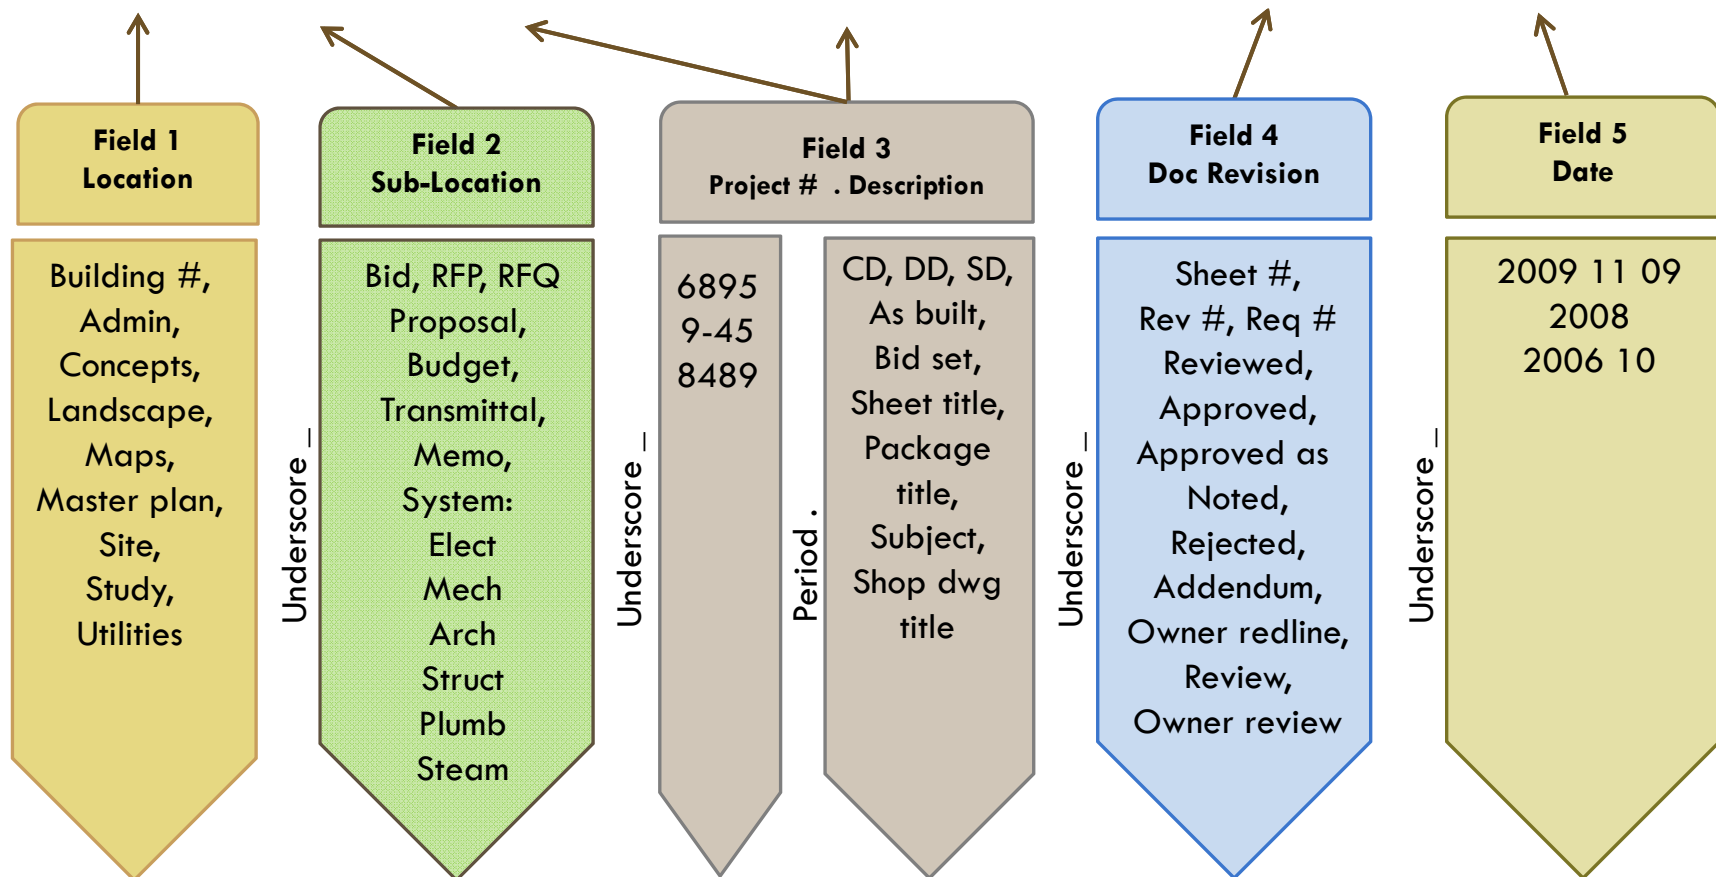

- **BIM Coordination Meeting Procedures**

Meeting type	Project stage	Frequency	Participants	Location
BIM REQUIREMENTS KICK-OFF	PROGRAMMING	ONCE	WMU/AE/CONST	WMU
BIM EXECUTION PLAN DEMONSTRATION	PROGRAMMING	ONCE	RESPONSIBLE PARTY	WMU
DESIGN COORDINATION	DD/SD/CD	BI-WEEKLY	RESPONSIBLE PARTY	WMU

The Results

From this... To this

The screenshot shows the Revit software interface with the WebTMA interface overlaid. The WebTMA interface includes a 'Schedule' tab and a table with columns: WMU_SUBTYPE ID, WMU_TYPE DESC, DESCRIPTION, WMU_TAG #, WMU_LOCATION, WMU_MANUFACT, WMU_MODEL #, WMU_SERIAL #, and WMU. The table lists various mechanical equipment items such as Control Air, Supply Fan, Return Fan, Chiller, Cooling Tower, and Heating Water C.

The screenshot shows the 'WebTMA Items/Locations: wmu bim' window. It has a dropdown for 'Building' (083 - Schneider Hall) and 'Template' (Equipment - WMU). Below is a table with columns: Category, Identifier, Parent, and Error. The table lists mechanical equipment items with their identifiers and parent categories.

NEW WORK ORDER FLOWCHART

EFFICIENCY IMPROVEMENT

Efficiency improvement with BIM for skilled trades
[Mechanical Equipment]

TAKEAWAYS — NEW CONSTRUCTION

- ✓ **CREATE BIM GUIDELINE**
- ✓ **PSA AGREEMENT: GET IT IN THE CONTRACT!**
- ✓ **KICKOFF MEETING: SET EXPECTATIONS FOR ALL THE PARTIES INVOLVED**
- ✓ **DETERMINE GATEKEEPER**
- ✓ **BIM IS A LIVING DOCUMENT**

TAKEAWAYS — EXISTING BUILDINGS

- ✓ 3D models for existing building do not need to be highly detailed, LOD 100-200
 - ✓ Define maintainable equipment and its parameters: use tradespeople's experience and operation manuals as reference
 - ✓ Audit your CMMS data in the field while locating your maintainable equipment
 - ✓ If equipment 3D models are not available on the web, create them using your construction documents or measurements
 - ✓ Connect CMMS and BIM models
 - ✓ Define standards for BIM-TMA data management
